The abstract is limited in length to one page. Abstracts should be centered on the page with 1.25 inch margins on each side and 1 inch margins at the top and bottom (8.5" × 11" paper only). Text, titles, figures and references must fit within these margins. The abstract should be printed with black ink on a single sheet of white paper. No page numbering should appear. The recommended font is Times New Roman 12 pt. unless otherwise noted. Single spacing should be used throughout the document with a space inserted between paragraphs. Paragraphs should not be indented. References should appear in square brackets [1].

The \textbf{TITLE} (in 14 pt BOLD CAPITAL LETTERS) should be centered at the top of the page. After a space, it is followed by the author’s name in bold type (centered) with affiliation and complete address in italic type (centered). Include a space between the author’s name and affiliation. After a space, include the text of the abstract.

Figures must be incorporated at the proper position and size in the text (template submission only). They must be oriented so that one can read them with the page right side up. All figures should be cited in the text by number (Figure 1, Figure 2). Descriptive captions should be used to explain the figures without the need to reference the text. They should be typed using Times New Roman 10 pt font. Do not use multiple columns. However, text may wrap around figures and captions. At the bottom of the page, following a horizontal line as separator, the name of the submitting author should be given (centered). Please include your e-mail address and/or fax number.

The abstract may be submitted online (text only, no graphics), or by e-mail attachment to sri2001@src.wisc.edu using the template provided at the meeting website (www.src.wisc.edu/sri2001). If submitting as an e-mail attachment, please indicate your preference for both oral or poster presentation and your permission to post your abstract on the sri2001 website.
